

Additional Translations

Additional translation copies requested at the time of the original service cost \$20.00 each. Each additional certified copy requested after the translation has been completed costs \$30.00 each up to one year from the date the translation was issued. After that date, each additional certified copy costs \$50.00. We guarantee keeping these translations for up to three years. Add an additional \$5.00 per copy if you would like your translation to be mailed in a specially sealed JS&A envelope.

If you wish to receive extra translations after your service has been completed, please download from our website the Application for [Extra Foreign Credential Evaluation Reports and/or Translations](#). Extra translations will be identical to those previously issued. Any revision or addition to the translation will constitute a new translation, for which a new application form and a new fee must be submitted.

PLEASE NOTE: If we completed your translation more than a year ago, we no longer have a copy of your documents in the original language in our files. Please send said documents together with your application and the payment. An extra copy will not be issued without said documents.

Most universities and licensing boards require that translations be sent to them directly by our Company. However, some institutions will accept translations mailed to them by the applicant if they are received in an unopened, specially sealed JS&A envelope.

Be sure to provide us with pre-addressed labels or envelopes for mailing translations to any location other than your address. Extra translations are usually mailed out in 10 business days. Rush mailing available, see pricing in the application.
